

THE MYRON ZUCKER PROVEN PROCESS

Utility Bill Analysis/Power Quality Analysis

Questions:

- Power Factor Penalty?
- Transformer/Distribution Capacity?
- Meet Standards?
- Presence of Non-linear Loads?
- Failure of Electronic Components?
- Nuisance Fuse Blowing?

Power Factor Correction/Harmonic Mitigation

Benefits:

- Eliminate PF Penalties
- Unload Transformer
- Reduce Line Losses
- Improve Voltage Conditions
- Limit Harmonic Distortion
- Improve Energy Efficiency

Continuous Customer Communication

Commitment:

- Unlimited Technical Support
- Prompt Assistance
- Maintenance Reminders
- Replacement Parts

Our Promise: *“You Will Get Results”*
